Hints & Tips
Printing on Backlit Paper

Ink Jet Printers:

• Set your printer to print on a **'Transparency'** setting on a **'Standard Draft'**.
• Please note if 'Best' or 'Photo Quality' drafts are used the ink will not dry.
• Print on the matt side of the paper
• Allow atleast 5 minutes for the ink to dry before displaying.

Laser Printers:

• Set your printer to print on a **'Transparency'** setting on **'Standard Draft'**.
• Print on the glossy side of the paper

Backlit Paper:
The paper is 280gsm UV Backlit film.

We can not guarantee that this paper will work with all printers.
